Description

Notes: A#-1, C-2, D-3, D#-4, F-5, G-6, A-7, A#-8

Since it is a A# major scale obviously A# will be first note, how to find the remaining notes ?

The simple formula which is used for any major scale:

One- One- Zero- One-One- One-Zero (1-1-0-1-1-1-0)

What do you mean by Ones and Zeros ?

One's (whole step) If there is a one key between two notes, then the interval of those two notes is One.

Eg: from A# to C the interval is one key.

Zero's (half step) If there are no keys or zero keys between two notes, then the interval of those two notes is Zero

Eg: from D to D# the interval is zero. (Immediate keys)
