Description

Notes: G#-1, A#-2, C-3, C#-4, D#-5, F-6, G-7, G#-8

Since it is a G# major scale obviously G# will be first note, how to find the remaining notes ?

The simple formula which is used for any major scale:

One- One- Zero- One-One- One-Zero (1-1-0-1-1-1-0)

What do you mean by Ones and Zeros ?

One's (whole step) If there is a one key between two notes, then the interval of those two notes is One.

Eg: from G# to A# the interval is one key•

Zero's (half step) If there are no keys or zero keys between two notes, then the interval of those two notes is Zero

Eg: from C to C# the interval is zero• (Immediate keys)
